Projects

Delicious Dairy Web Application
6 Months Experience
2023-24 C-DAC Project

- Developed the DeliciousDairy Platform as part of my PG Diploma in Advanced Computing, streamlining daily dairy needs with features like customer registration, online ordering, and assured doorstep delivery.
- Implemented a robust backend using Java, Spring Boot (MVC), and MySQL to manage orders, customer data, and delivery schedules efficiently.
- Built a dynamic and user-friendly frontend with React.js, enhancing the overall user experience with responsive and interactive design.

Employee Management System
2 Months Experience
2024

- Developed an Employee Management System using Java, Spring Boot, Hibernate, and MVC architecture to manage employee data efficiently.
- Implemented CRUD operations for seamless handling of employee information, ensuring data integrity and scalability.

My Portfolio Site
2 Month Experience
2025

- Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase personal projects, skills, and contact information.
- Designed an interactive and visually appealing user interface with CSS, ensuring cross-browser compatibility and a seamless user experience.
