SUMMARY

Passionate Full Stack Developer with hands-on experience in building responsive web applications using Java, Spring Boot, React, and MySQL. Skilled at developing efficient backend systems and interactive frontends. Actively seeking a full stack developer role to contribute to dynamic projects and grow in a collaborative environment.

SKILLS

- **Languages:** Java, C, Python
- **Web:** HTML, CSS, JavaScript, React
- **Backend:** Spring Boot, MVC, Hibernate
- **Database:** MySQL
- **Tools :** MySQL, Git, GitHub, Postman, Render, AWS, VS Code, IntelliJ, Figma

PROJECTS

Delicious Dairy Web Application   2023 - 2024

Tech Stack: Java, Spring Boot, React, MySQL

- Developed a full-stack dairy management platform enabling user registration, product ordering, and doorstep delivery.
- Backend implemented with Java and Spring Boot (MVC) and data managed using MySQL.
- Frontend built using React.js with a responsive and interactive design.

Portfolio Website   2024 - 2025

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a responsive website to showcase personal projects and contact details.
- Focused on modern UI design and ensured cross-browser compatibility.
- Deployed the website using Render for reliable and scalable hosting.

Employee Management System   2024

Tech Stack: Java, Spring Boot, Hibernate, MySQL

- Developed a CRUD-based employee management system with efficient employee data handling.
- Ensured data integrity using robust backend architecture.
